

ENZWEILER
BUILDING INSTITUTE

BUILD YOUR STUDENTS' FUTURE WITH THE ENZWEILER BUILDING INSTITUTE

A Pathway to Success in the Licensed Construction Trades

Help your students secure a fulfilling, high-paying career in the skilled trades by introducing them to the Enzweiler Building Institute (EBI). With over 50 years of experience, EBI offers unparalleled training in the construction industry, setting students on a fast track to success in one of today's most in-demand fields.

Why Choose Enzweiler?

- **Career Acceleration:** EBI students graduate ready to earn, often achieving licensure faster than peers who take traditional career paths.
- **Debt-Free Learning:** With affordable tuition and scholarship opportunities, students can enter the workforce without the burden of student loan debt.
- **Hands-On Training:** Our instructors are seasoned industry professionals, ensuring students gain practical skills employers value.
- **Industry Connections:** Partnerships with local businesses lead to job opportunities and apprenticeships, giving students a direct pipeline to rewarding careers.

A Message for Counselors:

Empower your students to thrive in high-demand fields by guiding them to EBI. The construction trades offer unmatched stability, career growth, and financial independence. Your students can start building their future today.

Programs Offered:

Hands-on training in high-demand trades, including:

- Carpentry
- Electricity
- Facilities Maintenance
- Heavy Equipment Diesel Mechanics
- HVAC
- Plumbing
- Masonry
- Welding
- Covington Academy of Heritage Trades

The Numbers Speak for Themselves

- **Electricians:** Average annual wages of \$60,000+; Master Electricians earn \$85,000 or more.
- **Plumbers and HVAC Technicians:** Average starting salaries of \$55,000+ with experienced professionals earning \$80,000+.
- **Carpenters and Welders:** Entry-level positions start at \$45,000, with rapid opportunities for growth.
- **Licensed Trades:** Workers with licenses earn 20-40% more than their non-licensed counterparts.
